

19" 1U MIO Series Modular Frame Panels

Our MIO Series products allow you to design your panel needs for fiber optic applications according to your wishes. Thanks to its modular structure, you can make changes and additions. While it can be used with SC, LC, MTP/MPO, E2000 and MU adapter options, it can also be used with HD series MTP/MPO conversion modules or adapter modules. A wide variety of application options provide smooth, economical, efficient and easy management of your infrastructure.

Product selection, installation and application are very easy. Front panels can be used alone or by adding a rear organizer and front organizer. Being available with a plug and play solution eliminates labor and time requirements.

Modularity-In-Options (MIO) - Create your own panel

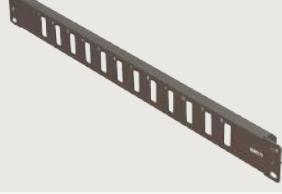

Features and Applications

- 96 Fiber Capacity with LC Connectors
- Used in Data Centers, Equipment Rooms and Telecom Rooms
- Can be mounted on 19" Cabinets or Racks
- Easy to Use and Practical. Suitable for Field Applications
- Can Be Easily Used with Fabricated Terminated Cable Structures
- Modular Panel Structure for Various Configurations
- SAMM Patented Adapter Clips for Angled Applications
- Powder Coated RAL 9000 (Black)
- Operating Temperature: -20°C / +80°C

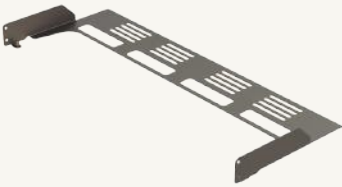

Standards Compliance

- TIA/EIA-568-C.3
- RoHS Compliant
- ISO9001 Certificate
- Reach Compliant
